## Education

### Techno India University

Bachelor of Technology in Computer Science - **8.93 CGPA**

August 2022 – July 2025

Kolkata, West Bengal

### Government Polytechnic Katihar

Diploma in Engineering - **9.01 CGPA**

August 2019 – August 2022

Katihar, Bihar

### Bijendra Public School

10th CBSE - **91%**

March 2018 – April 2019

Purnea, Bihar

## Experience

### GirlScript Summer of Code

October 2024 – November 2024

Open Source Contributor

- Identified and raised **several issues** across multiple repositories, enhancing code quality and project reliability.
- Submitted and successfully merged **5+ pull requests (PRs)** using **Git and GitHub**, leading to improved features and bug fixes in **React** and other front-end technologies.
- Developed strong skills in code comprehension and debugging, leveraging **Git** for effective collaboration, which reduced project errors by **15%**.

## Projects

### Anonify

[Live Link](#)

- Led a **hackathon team** to develop a tool that **securely masks and redacts sensitive information** across various document formats, with **customizable redaction levels** to enhance data protection.
- Designed the Landing Page and Upload Page for seamless navigation and efficient document uploads using **React.js**.
- Implemented customizable selection and deselection of text on the Review Page, allowing users to easily manage redacted content.

### Vihaan

[Live Link](#)

- Created the **Event Registration application** using **React.js** for the **Radharaman Group of Institutes Bhopal Annual Tech Fest website**, streamlining participant registration.
- Enabled the registration of **over 250 students**, driving higher participation rates and enhancing event engagement through an efficient online platform.
- Collaborated in a team project, specializing in frontend development to deliver an engaging, user-friendly interface.
- Achieved a **34% increase** in student participation compared to the previous year.

## Skills

**Languages:** C++, HTML, CSS, JavaScript, JQuery

**Frameworks & Libraries:** React, Bootstrap, Tailwind CSS

**Database:** SQL

**Tools & Others:** Git, Github, VS Code

## Achievements

- Anonify Project** nominated for the **final round of STEP** at **IIT Kharagpur**.
- AI Unite Hackathon 2024 - **Finalist**.
- Technothon AI Hackathon 2024 - **Top 5**.
- CodeKaze Coding Competition 2024 - **AIR 416**.
- Smart India Hackathon 2023 - Top 25.
- Institute Rank 7** out of 1500+ students registered at GFG.
- Solved **1000+** Data Structures and Algorithms problems across various platforms.
